Price Adjustment in May & July 2023

Back in March and April 2022, we implemented a price increase for the Nutrilite and Personal Shoppers Catalogue range of products. Prior to that, the last price revision for all categories was back in 2016, with a minor revision to reflect SST adjustment on selected items in 2019.

The price revision for Nutrilite products in 2022 was kept at between 4%-5%, as we strived to reduce the burden from the overall inflationary pressure onto the rising household burden. While effort was made to avoid passing the full impact of the cost increase, the revision was necessary to partially mitigate the inflationary impact on the cost of purchase arising from the escalating costs of raw material, production, freight and logistics.

With that, there will be another price revision for Nutrilite products at a weighted average of 5.7%-6.5% in May 2023. We understand that this will require a period of adjustment, especially for your customers. Hence, with the feedback that we received, we have decided to phase out the Nutrilite's price adjustment between May and July 2023, and hope that this will give you time for you and your customers plan your purchases better.

Besides Nutrilite, the price adjustment will also apply for the eSpring Water Treatment System, Atmosphere SKY products and its parts, as well as the ARTISTRY range of products in March, April and May respectively.

Thank you for your understanding and support.

Amway Product Price Revision 2023 – Effective 1 May & 1 Jul 2023

Please be informed that a selection of Nutrilite, XS, ARTISTRY and Personal Shoppers Catalogue products will see a price increase from 1 May 2023 and 1 Jul 2023 onwards.

Update: The price increase for Nutrilite (tablets and softgel supplements) SKUs has been deferred to 1 Jul 2023.

The weighted average price increase for the affected SKUs within the respective categories are:

Category	Effective Month	Weighted average price increase
Nutrilite (functional food and beverage supplements)	May 2023	5.7%
XS	May 2023	3.4%
ARTISTRY	May 2023	5.6%
Personal Shoppers Catalogue (food and beverage)	May 2023	0.1%
Nutrilite (tablets and softgel supplements)	Jul 2023	6.5%

We want to provide high quality products sourced from premium ingredients and deliver 100% satisfaction guarantee* every time you make an Amway purchase. In keeping true to this, our price points will need to be adjusted due to rising inflation, local currency depreciation, increased cost of materials and transportation costs to produce and deliver these products. Therefore, we hope you understand that we don't skimp on quality as we announce the new price revision for these Amway products.

***Based on the T&C of the [AMWAYPROMISE](#)**

Leadership Bonus

Effective 1 Jul 2023, the following LBA will apply:

	Effective 1 Apr 2023		Effective 1 Jul 2023	
	MY (RM)	BR (B\$)	MY (RM)	BR (B\$)

NLA: XS Mixed Whey Protein with Chocolate Flavour

Due to post-pandemic inflation, the prices of raw materials have risen significantly. This has negatively impacted the production cost of our products, with constant price increment from our manufacturers.

Hence, please be informed that **XS Mixed Whey Protein with Chocolate Flavour – 1kg (292650)** is estimated to be No Longer Available (NLA) nationwide upon stock depletion (estimated end-July 2023).

Please understand that this decision is made to not further burden our ABOs/APCs with more price increment.

Fret not, as we will be launching an exciting and brand new XS product*, to aid in your weight management and fitness journey. Stay tuned for more updates!

**Do note that the new XS product will NOT be an exact replacement of XS Mixed Whey Protein with Chocolate Flavour*
